Special ta egram to the News.
WARRENTON, N. C. Nov. 8th. The negro William Rainey, who some months since murdered Jim Taylor, colored, yesterday expiated his crime upon the gallows. The circumstances of the murder, briefly narrated, are afollows: Rainey and Taylor were intimate friends up to the day of the murder. They had been at work together at a point down in Edgecombe, and Taylor had accumulated some little amount of funds. They were on their way back home to see their fami- reported: lies, and it is thought that at night, when at a point about a mile from Warrenton depot, they stopped by the roadside to camp for the night. Next morning the body of Taylor was discovered, with several wounds upon i, stark in death. By the murdered man lay his dog, terribly mutilated. In a field near by an axe helve was found sticking in the ground, and so covered with clotted blood as to show that with it the death-dealing blow had been struck. The murderer, it is thought. pursued his course homeward, with the noney he had taken from his murdered companion.

Soon after the commission of the horrible deed, notices were sent all over the county, giving the place and particulars of the crime, and a descripion of the supposed murderer. Shortly after the notices had been so distributed Rainey appeared at the store of Mr. Fieming. who is a constable, and his actions were such as to attract pirticular attention. ### Blackstone Wrong.

Albany Law Journal. The prevailing idea is, that there always has been some mysterious excellence in the common law; that it had its source in the purity and simplicity of some ancient but undefined epoch that as letters were not much used in these times of wise simplicity, it had been handed down by tradition from age to age and generation to generation, and that though the corrupt learning of the schools which obtained in late ages, and the false refinements of modern iunovation, had greatly impaired its original purity and prestine vigor, yet its regenerating principle was gradually operating to restore its primitive virtures and original sanctity. Such was the notion set forth with great eloquence and persuasion by Blackstone. But other jurists, less given to panegyric, have discovered that this is a vain superstition. And it seems to be now pretty generally agreed that the so-called Common Law of the Saxons, Danes and Normans, and that prevailing during the reigns of the Plantagenets and the first Stuarts, was unworthy of our admiration; that our Common Law took its rise in the middle of the seventeenth century, to which the second revolution in 1668 gave shape and figure, that it was afterward improved in England,

but received its greatest lustre in this country. Curious Diptheria. Reidsville, Times. The diptheria around Company Shops has proved fatal. In the family of Albert Mitchell, four miles from the Shops, four children were lost and then the father. Mr. Hughes, a laborer in the roiling mill, buried one child to return from the funeral and find another dead, and by the time the second was buried a grave was dug to bury the third one the next evening. Some doubt it is diptheria. Willis Sellers says he remembers the same kind of disease around the country thirty years ago, Dr. Mike pronounced it some sort of paralytic affect on of the blood, he forgets the technical name. Some of victims have been taken in the toe and it runs in a streak all up the body and ends right under the throat. In the case of Mr. Tompson's little boy his foot cracked open under the bottom and a red streak ran up each side of the leg, one streak taking pp the stomach to the boy's neck and the other running up his back. Broughton, F. R. Underwood. The special order for 10 o'clock, to wit: the discussion of the report of the board of education, was then taken up. Prof. L R Mills addressed the convention at some length, especially referring to the academic course recently established in Wake Forst college, which was intended for those young men, who desiring to preach, had not the means to take a full collegiate course. He argued that it was absurd for a poor yonng man who had only one year to spend in preparing himself to preach, to spend that year in gaining a small amout of knowledge of Latin and Greek. It was the design of this Department to furnish them with a g od English education, and it was doing great and glorious work. There were thingen young men at the College in this department and they promise to be valuable workers in the church. Prof. W B, Loyall also spoke at cor siderable length in the same strain, urging the grave necessity of educating the ministry, taking the ground that while there were a few minds which could, with outside aid, beat theology out of the Bible, the great mass need ed at least that a di ection-a start -should be given them. This was the design of the enterprise and he could bear abundant witness to the efficacy

Rev. F. W. Eason, J. S Purefoy, Elis Dodsen, J. Harrison, J. D Huffhum, D. D., W. M. Wingate, D. D., Edward L. Dwis, made earnest speeches on the same subject. The moring bour was consumed by these speeches, the discussion taking quite a wide range, the general idea prevailing that whenever a man wants to preach he should be allowed to do so, but that the church ought to help them to the

extent of its capacity.

Rev E A Harding, Gen John A Young and Gen R D Johnston, a committee appointed by the Presbyterian Synod at its session in Goldsboro, appeared before the convention asking its co-operation in inducing the Legislature to pass laws prohibiting the desecration of the Sabbath day by railroad companies running and unloading their freight trains on that day.

The memorial of the Synod was read

by Rev. Mr. Harding, and the convention was addressed by him and by Gen John A Young.

At the conclusion of the remarks of the visitors, C. M. Cooke introduced

the following: Resolved, 1st. That we concur with the Synod of the Presbyterian church in this State in the resolutions adopted its last session on the subject of memoralizing the next General Assembly of North Carolina to prevent by suitable legislation the violation of the Sabbath day by our railroad corporations.

Resolved 2d. That a committee of five be appointed to report to-morrow, at 4:30 p. m., suitable resolutions expressing our sentiments on this subject and proposing a plan for carrying out the object of the first resolution. The resolutions were adopted unani-

mously. The agency question came up again for discussion and was postponed till the report on State missions was disposed of.

#### EVENING SESSION.

At 7 o'clock the convention re-assembled and went in a sort of general mass meeting on the subject of foreign missions. The church was again overcrowded, many members of other denominations in the city being present, The exercises were begun by Rev Dr Capt R B Peebles, of Northampton, J B Jeter, editor of the Religious Her- was a young lawyer of promise in our ald, of Richmond, who made an interesting discourse showing that the idea of missions was a leading idea in the teachings of Christ. He not only authorized it, but commended it; a church without the spirit of missions was no church at all. He closed with a strong appeal to the Baptists of North Carolina to do their share in this work.

President Graham then introduced Rev Dr Tupper, Secretary of the Board of Foreigh Missions of the Baptist Church, who addressed the assembly at some length. He expressed great pleasure that the Baptists of North Carolina contributed so nobly during the past year to this cause. Their reports showed that \$3,600 had been given and that they had more than paid their quota for the chapel at Rome. He spoke very encouragingly of this church, which was dedicated last Sabbath under the very shadow of the Pope's palace, and paid glowing tributes to Rev Matthew T Yates, Geo B Taylor and other mis-ionaries sent out and supported by the Baptist

Church. At the close of the address, Rev Dr Pritchard thanked the speakers in the name of the convention for their interesting lectures and suggested that something he done right here and now for the support of the cause. "I will be one of twenty to give five dollars to be paid by the first of Janu-

ary," said Rev Elias Dodson.
"That's right," said Dr Tupper;
"who'll be the next?" At this others
began to rise in different parts of the house, and in five minutes the twenty names were subscribed.

Dr Pritchard headed another list of the same kind, and in a short vime it was complete, same) sal A subscription wat then taken up in the congregation, and when the secre-

taries counted up all the money collected and subscribed, the amount was found to be \$240. Rev J B Hartwell, a retired missions ary from China, was announced. He

said that in his travels in South Carolina, two children had given him a gold pencil and a gold ring to be sold for the missionary cause, and a poor Baptist minister had given him a handsomely bound hymn book to be disposed of in the same way and for the same purpose, and that if any person desired to purchase these articles during the ession, could do so at any time. His first proposition which became the law, was to enable persons of color to testify in the courts and other legal proceedings generally. They had previously only been allowed to become witnesses for or against persons of their own color. This rule had been frequently one of great hardship and injustice. It should have never disgraced our statutes. The best testimony touching any fact should always be nad in the courts, and to say that whole classes of men are unworthy of belief because of the color of their skins, is as irrational as it was unmanly and oppressive. The other legal change was the adoption by North Carolina of Lord Chief Justice Deman's act by which parties to civil suits could be heard as witnesses at the trial. The slightest accrued interest in a possible verdict had been for centuries an utter disqualification for testimony in all common law courts of England and America. It is not the rule now and

whiskey, cotton and tobacco, and for the repeal of the entire internal-revenue tax, and favor no tax but a revenue tariff based upon the ad valorem principle, and then consume as few foreign goods as possible. on brilliant marriages. THE Reidsville Times is the sert of a chatter-box the NEWs likes.

Armfield's majority in the 7th district will not be less than 5,000, says the Winston Sentinel.

THE irregularity in the visits of the Richmond Dispatch we cannot account for. We like the plain, unsophisticated, common sense ways of the Dispatch.

THE crowning ambition of Butler's ignoble life was to be Governor of Massachusetts. The profound veneration we entertain for Massachusetts and her institutions causes us to lament his defeat as a calamity.

"Swored off" again. "I never will have anything more to do with politics anyway, no matter who is nominated for no matter what office hereafter." That is the way people are said to feel the morning after a little fun. Will they stay "swored off"--that's the question.

How It Looks Now. The Democrats have elected sufficient members of the next House to have been unusually large this year, secure its control by from twenty to some of the older nations will fall far thirty majority over all. They have obtained a majority of the delegations in twenty States, thus securing the next President should the election be thrown into the House; they have made important gains in both the South and West, and have suffered losses in but three States. The Radicals have retained their hold in Massachusetts and Pennsylvania, secured the re-election perity. of both Conkling and Cameron to the Senate, temporarily changed the political status of New Jersey and Connecticut, and have made several Congressional gains in the extreme North.

### Echoes of the blection.

The Winston Sentinel's chicken cock splits its throat over Armfield's brilliant victory in the 7th District, and Scales' magnificent triumph over the "glasseyed carpet-bagger," Tourgee. Brower is "relieved."

Far as heard from, Helper received 7

votes in the 7th District. Falling off of over 5,000 in the Meck-

lenburg county vote.

The Democratic loss in the Northern States, the Charlotte Democrat thinks, is due "the fuss and contention and useless talk kept up about Hayes' tile

to the Presidency." Had Waddell been re-elected, he would again have been appointed chairman of the committee on postoffices and post-roads, and this, the Charlotte Observer says, would have been a

stepping-stone to the postmaster generalship under a Democratic administration two years hence. The happiest man in town, the Patriot says when the election returns were coming in was Mr. George H. Gregory, Chairman of the Congressional Committee, and he had a perfect right to be pleased for his untiring

work during the campaign told splendidly. But the boys all worked well. The Patriots estimates Gen. Scales' majority 2,500.

Reidsville Times: The result shows that Reidsville, outdid herself, 45 majority for Scales, a gain at least of 25. But two white men in the place failed to vote. Five whites voted for Tourgee and five negroes for Scales. And bless old Wentworth! 85 majority for Scales. Ruffin too was on her mettle, and gave Scales 62 majority, and as for the Iron works, she just threw herself away on Scales, our old friend R. P. Richardson, Sr., was there working like a beaver from sun up till sun down, and he drew blood from Tourgee every pop. And good old Madison, why she was just alive! Capt. Walter Smith was addressing the people at one corner of the strest, and Pleasant Scales and others were whooping them up at the other end, and when June Smith left

there at 3 o'clock, p. m. Scales was then 60 a head. Thomasville has changed front, wheeled into line, and cast the die for Scales by 202 majority; and now the word is common on the street-"Have

you heard from Thomasville ?"-Sun-Greensboro Correspondence.

Blashing for Caswell. Correspo dence i anville News.

Correspo dence i anville News.

I visited the Agricultural Museum at Raleigh by invitation of Col. L. I., Polk, the Commissioner of Arigriculture for North Carolina. Rockingham presents a very small exhibit, and when I came to the apartment assigned to Caswell I had to turn my head to blush for our neighbors. What do you suppose I there found as a sam-

with the second

ple of what the great farming county of Caswell can produce? Simply a small bundle of very inferior dark lugs. That from the home of the Slades, the Graves and the Warrens. Tell Buck Thomas to go and make Zeke Slade, Frank Warren, Jerry Lee, or some others of the numerous farcywrapper raisers of his old county to send a few bundles of decent tobacco down here to Col. Polk, and for the Tom Evan's paper: Give us a rest sake of Caswell's former reputation don't let the thousands of people who visit this museum longer go away with the impression that Granville and Orange are the only counties in North Carolina that raise faucy yellow tobacco. What do the people of Caswell mean? Why, every shelf in their apartment ought to be loaded down with fancy tobacco of every kind.

> Talking to Hanibal About War." umberton Robetonian.

The low price of cotton again this year is really disheartening to our farmers, but it would be a blessing in disgnise if it would cause them to diversify their crops. According to our way of thinking there are several crops which will pay better than cotton. Let us make a calculation, and (if we err in it, it may cause some practical farmer to give his views) see if it is not so: An acre of ground that will produce 500 pounds of lint cotton will produce 40 bushels of corn, 500 bushels of sweet potatoes, 15 bushels of wheat, 30 bushels of oats or 1,000 bushels of chufas. The average price of cotton being \$8 50 per hundred pounds, the product of the acre would be \$42.50. 40 bushels of corn at 75 cents per bushel would be \$30.00. 20 bushels of peas could also be raised on the same acre which at 90 THE Reidsville Times tells why Cas-add to this 2000 lbs. of fodder at 75 cen's per hundred and 2500 lbs of shucks at 33 1 3 cents per hundred, and which we think is a fair calculation. \$20 additional realiz d.

Besides being the best hair dressing over produced, Lyon's Rathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed,

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN. I had been entirely bald for several years, com-

BEAR IN MIND .- The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. A CERTAIN AND SPEEDY GURE FOR SCROFULA

A BRIEF HISTORY: The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Serotula with Mrs. Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Serotula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well a d hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some Scrotulous affection on the heel lie had been to the Hot Springs la Arkaussa, and from there he went to Kittrell Springs. Not ing did him any good. At Kittrell's they told him of Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's secipe, and Dr. — wrote to Mrs. Person's secipe, and Dr. — wrote to Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's section of the south Carolinian sent her word if sue cured him he would give her five hundred dollars. She sent hin directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The south Carolinian went home, and shortly siterward sent Mrs. Person a cheek for twenty-five dollars, and wrote the most gratefullet ter he knew how. Biess the se old indians. We wouldn'tk and wrote the most gratefullet ter he knew how. Biess the se old indians.

UNEQUALLED AS A BLOOD PURIFIER. MRS. JOE PERSON :

The medicine I purchased of you last winter proved of lasting tenent to my son, who was troubled with twenty-five running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healtoy. As a tonic and blood Purifick it has no equal toping that you may be spared for many years of usefulne. S. I remain, Very respectfully.

Louisburg, N. C., May 22, 78.

AS A TONIC AND ALTERATIVE Being destrous of adding my testimorial to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofura, I take pleasure in saying that as a tonic and alterative I do not tank it has an equal, I have fairly tested it, and after trying Vegetine. Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any IONIC I have ever used. When I commenced using Mrs Person's Remedy I was very weak. complections dow, and now I am WELL, Respectfully your friend, MRS, H. L. BitOWN.

Sept. 28. 1878, MRS, H. L. BROWN.

WEEKS.

Dear Madame—Your letter has been received, and on account of being absent fro none for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scioula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scioula. If I can ever be of any service to you in any way, I want you to be sure and call on ms, Yours truly,

WM. H. AREINGTON. Mas Joe Person :

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofola from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofola for more than three years, and had despaised of ever getting weil. I was treated during that time by three very emine t physiciaus, without any good result. I then went to the National Surgical Institute, at Aclanta, Ca., and was treated there more than two months, with no better result than my family physicians net with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties, My sores soon began to heal, and the color of my skin changed as fast at the sores healed. I had not thought of ever getting weil again, but my hopes increased, my low speriteauess fied before the remedy, and I am now entoying splendid health and am in good spirits. The remedy is mind as a purgative, and a strong tonic; it will heal the most studborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is haled, to remove the cause of its effects, It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure alleady made would commence to retrograde, and for this alone it should be taken at the proper time. I would recommend to all why are suffering from scrofula to try it. It will surely eure you it you give it a lait test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,

JAMES A. MORRIS. "It will Cure if Fairly Tested."

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purmer, it is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other dispases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood' and probably for other diseases.

A CASE OF CANCER.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

Mas. Jos Person:

Dear Madam—I have been using you. Remedy for scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years, it has taken off my upper tip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed mu n. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommed any one suffering with heart disease to try your medicine. As a Tonic and Alteratives known to the medical profession for the last 12 years and 1 know of none superior to this. I think your medicine is testined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,

#### A Generous Deed.

With a thoughtfulness and kindness worthy of all praise, Messrs. W. H. & R. S. Tucker have given a good shawl to every girl at the Oxford Orphan Asvlum. No more acceptable article could have been sent, and as these little ones wrap themselves in their nice warm shawls they will bless the givers with all their hearts.

#### Change of Schedute.

On Monday the Sched train leaves Weldon at 3:40 p. m., and strives here at 8:25 p. m. This train makes close connection at Weldon with by those who knew her best. trains for Portsmouth and Richmond.

#### Gratifying,

The good work of beautifying the city by the erection of buildings goes bravely on, and it is really a surprise to make a tour of the place and see the number of residences now going up. The principal portion of the new Louses are in the northern portion of the city, in which direction there has been a steady extension of residences.

### County Commissioners.

The Board at an early hour yesterday went to the Poor House, to make the regular quarterly inspection of the condition and management of that institution. Both were found to be such as to merit the commendation of the inspectors. To-day the Board meets here, and will probably conclude the work before them, which is not particularly important.

### Almost in His Grasp.

Pat Nolan, who in September last had the good fortune to win a prize of \$1000 in the Havana lottery, will in a day or two receive the sum from a New York banking firm. It is but seldom that a person has the luck to on Monday evening. This motion was win such a prize, if, indeed, any at adopted, and the Mayor appointed Alall, save a box of sawdust, and Mr. dermen Magnin, Weaver, Blake, Ros-Nolan is to be congratulated upon his enthal and Hardie, as the committee. good fortune.

have been received by the State Audi tor from about 75 counties. An abstract was yesterday received from L. Walker, Register of Deeds, Currituck county, as follows: General taxes,

### The Colored Troops.

The visiting colored company from Goldsboro are lodged in the hall of the colored firemen. In the morning they marched round to the front of the market house, and stacked arms, The scene reminded one forcibly of a New Orleans street view. Yesterday afternoon the Oak City Blues and East Raleigh Guards joined the visiting company and paraded the streets.

### Basket Pic-ric.

The citizens of Johnston county and many from Wake enjoyed themselves particularly at the grand agricultural basket pic-nic at Clayton yesterday. Several parties went down from this city. Col L. L. Polk, Commissioner of Agriculture, was looked for to deliver an address, but could not be present. Hon. J. C. Scarborough, Superintendent of Education, addressed the assembly, which was quite large.

### Soon to be Happy.

The citizens of this burg, young and old, plain and colored, are to be happy soon. The good news came yesterday that the circus was coming, and in quiry revealed the fact that on the 14th inst., next Thursday, the Great London Circus and Sanger's English Menagerie will pitch its tent here. All melancholy is now driven from the heart of the small boy, who looks forward only to the gitter and glare of the lights and the mell of the sawdust. Elsewhere is the announcement of the circus.

conclusively settled in the court of last appeal in such cases, at Washington, by a decision that McElwee cannot register his Durham bull trade mark, which he has so long claimed as a right. Gov. Vauce. As announced in the News of Tueslay, the special car having on board the remains of Mrs. Gov. Vance, ac companied by Gov. Vance, her sous and the pall bearers and friends, left here on Monday afternoon at 5:15 p. m., and on the entire route every evidence of respect and sympathy was shown. The train arrived at Salisbury about 12 m., where it was met by Maj J. W. Wilson President W. N. C. R. R., Col. Means, of Gov. Vance's staff, Rev. Dr. A. W. Miller, the beloved Pastor of Mrs. Vance at Charlotte, L. S. Overman, the Governor's Private Secretary, and David M. Vance, son of Gov. Vance. the remains to the head of the road and some went as far as Asheville. The train arrived at Henry at 6 a. m., where the hearse, carriages and other vehicles were in readiness to take the party over the mountain. The party arrived at Asheville at 10:30 p. m., and the corpse was immediately taken to the residence of Dr. M. L. Neilson, the brother-in-law of Gov. he remains from Raleigh. The Federal court, Judge Dck, and student at Wake Forest College, will the Superior court, Judge Avery, were both in session, but adjourned to attend the funeral. All the stores and places of business were closed during the services. A very large congregation assembled and both the church and yard were densely packed. The services were opened with prayer by Rev. Dr. J. M. Atkinson, who was the Pastor of Mrs. Vance at Releigh Rev. Dr. A. W. Miller then announced as the Hymn to be sung, which was selected for the occasion by Mrs. Vance, "I would not live alway." He then announced as his text the 15th verse of the 17th psalm-"As for me, I will behold thy face in righteousness: I shall be satisfied, when I awake with thy like ners." A more powerful, beautiful and eloquent sermon has seldom if ever been denvered in the State. It would be in vain to attempt to give any just report of the tender pathos and surpassing beauty of this most able and powerful presentation of the christian's hope founded on the truths of the Gospel, as compared with the groundless rope of those who reject the Saviour and of the Infidel.

### Board of Aldermen.

The Board held an adjourned meeting last evening, to elect policemen or the ensuing quarter. A motion was made by Alderman B ake that the present police force be continued. Alderman Weaver stated that many cit zens demanded a change

in the police force. Alderman Ellison moved to amend Alderman Blake's motion by requesting the thief of Police to name those ofticers who are inefficient, and that their places be then supplied.

Alderman Weaver then moved, as a substitute, that all positions on the force be declared vacant. Alderman Magnin moved that a committee of five be appointed by the
